Discover Yourself
Through Self Motivation

On
January 18, 2009
At
CASE, G-5/1, Islamabad

Resource Person

Prof. Dr. Ali Sajid TI

Purpose and Background

All professionals including engineers & managers require continuous updating of knowledge, state of the art skills and identification of new applications. Pakistan Engineering Council with its objective of introducing and ensuring Continuing Professional Development amongst its growing community of professional engineers has planned series of short courses in addition to many other academic and professional activities.

This course is designed to help engineers & managers to gain the power of Self Motivation in their workplaces, and to deal with the complex issues that can occur in the day-to-day realities of motivating and managing an organization.

Learning Outcomes and Benefits

- To get awareness about the true meanings and spirit of self motivation.
- Discover the strengths of your inner self through the positive forces of self motivation.
- Make better informed choices about your future through choice of effective motivational style.
- Energize yourself through the unlimited power of self motivation.
- Start viewing impossible as possible.
- Develop mastery of yourself in the working in professional and personal life.
- Recognise and discover your own untapped Potential.

Special Features

- ❖ A certificate will be awarded to the participants.
- ❖ On adoption of regular Continuing Professional Development System by PEC, Credit points will be awarded to the Registered/Professional Engineers who have attended the course and earned the certificate.
